LIGHT UP YOUR BRAND

VEHICLE BRANDING

VEHICLE
BRANDING

Vehicle branding is a great and cost-effective way to create a huge impact on thousands of your potential customers every day. For this reason, when we design graphics for vehicles, we don't just aim to improve the look of a car, a van or a truck. We strive to use that vehicle as a media channel that can send a clear message to a specific target audience.

Full Vehicle Wrap A vinyl wrap covers your vehicle completely in a special material. The wrap material is manufactured to allow it to bend and shape to the curves and contours of the vehicle and it has a super strong adhesive that that comes with warranty.

Half Vehicle Wrap / Vehicle Graphics A half wrap is different from a full wrap in that, as the name suggests, it covers only half the vehicle.
